Integration

CompHub Resource Management

Empower your claims professionals and nurse case managers with access to all their workers' compensation internal resources and partners' services, at their fingertips. This intuitive portal centralizes all of your claims and referral resources into one dashboard with easy, single sign on.

Easy Integration

Stay connected! Rapid deployment of our intelligent solutions by leveraging our existing integrations with hundreds of companies that service the workers' compensation market.

BUILD & MANAGE A HIGH PERFORMING REFERRAL NETWORK

With a rich history in workers' compensation, Perspecta has the expertise to transform user experience and workflow with machine learning powered provider data management solutions for workers' compensation carriers, medical bill review companies, state insurance funds, and third-party administrators.

Our solutions are designed to help you cut costs, reduce workload, and get injured workers back to work faster, while mitigating litigation. Our intelligent, friendly solutions keep claims adjusters and nurse case managers happy while increasing productivity.

From State required provider panel posters and provider directories, to workers' compensation resource hub and referral management, we create solutions to optimize provider searches, ensure provider panel and information accuracy, reduce risk and streamline workflow.

VIIAD Provider Directory

Get the innovative, accurate directory solution to comply with State and Federal. Injured workers can search, compare, and select the right providers based on their needs (and yours!) Our advanced filtering uses your own pre-determined criteria to prioritize provider search results.

Directory Chat Bot

This directory chat bot manages a series of conversations, answering questions through insightful interactions. This savvy bot assists injured workers by engagingly pointing them to the best healthcare providers for their medical needs.

Provider Panel Cards

Accurate, state compliant Workers' Compensation provider panel cards and posters are essential in getting your employees back to health and back to work, while reducing costs and risk. Let Perspecta handle them all.

Health Ticket

Control medical claims costs with electronic and hard copy Workers' Compensation ID cards that display managed care and relevant information to the injured workers. Choose from and brand with your logo and colors.

Refer and manage your preferred providers from a smart, single source

Improve workflow and reduce costs with our cloud-based provider referral management portal that seamlessly integrates your preferred providers in one intelligent management portal. No more logging into multiple websites to access multiple referral forms and resources. eReferral Portal puts everything claims adjusters and case managers need at their fingertips.

Machine Learning

Our Machine Learning-enabled data profiling automates the identification of data and provides data matching right down to the single attribute level. Artificial Intelligence helps to ensure comprehensive data cleansing by mapping data from source to transformation, and final destination.
