# Provider Data Management (PDM)

Clean, Connected & ***Completely in Your Control.***

## THE CHALLENGE

Inaccurate, siloed, and outdated provider data costs the healthcare industry nearly $5 billion[1] annually and can trigger compliance fines, claims delays, member frustration, and stalled market growth.

Whether you manage your own network or lease one, keeping provider data accurate, compliant, and ready for use shouldn't drain your time, budget, or IT resources.

## THE SOLUTION

Perspecta's Provider Data Management (PDM) platform is a secure, self-service hub for consolidating, cleansing, and governing provider network data. Built for both group health and workers' comp, PDM eliminates silos, streamlines updates, and helps you meet compliance demands, without the headaches.

## KEY CAPABILITIES OF PERSPECTA'S PDM

### SELF-SERVICE PROVIDER MANAGEMENT

Add, update, or deactivate providers instantly

### ROSTER MANAGEMENT & DATA AGGREGATION

Ingest, map, and unify roster data from multiple sources

### SECURE, CENTRALIZED MASTER DATA HOSTING

One authoritative source for all stakeholders

### AUTOMATED CLEANSING & VERIFICATION

Cross-reference against Perspecta's Data Vault

### AUDIT-TRACKED UPDATES & REPORTING

Full transparency for compliance and governance

### INTEGRATED INSIGHTS

Monitor and improve data quality over time

## FOR HEALTH PLANS

- Eliminate regulatory risks and directory errors
- Reduce claims rework and operational costs
- Scale network management without inefficiency
- Gain real-time visibility into data quality

## FOR WORKERS' COMP

- Clearly managed provider network data
- Improve accuracy in provider routing and claims handling
- Optimize channeling and provider alignment
- Prevent costly delays and denials

## WHY PERSPECTA'S PDM STANDS OUT

| | |
|---|---|
| **SEAMLESS INTEGRATION** | Works with your current systems—no costly overhauls |
| **FLEXIBLE SELF-SERVICE** | Control your data without relying on IT queues |
| **AUTOMATED ACCURACY** | Real-time data validations reduce human error |
| **AUDIT-READY COMPLIANCE** | Stay ahead of evolving regulatory standards |
| **PROVEN IMPACT** | Lower fines, cut costs, and improve operational efficiency |

**Accuracy**

**Consistency**

**Governance**

## THE RESULTS YOU NEED

- 75% reduction in provider directory errors
- Save up to $5 PMPM[1] by reducing redundant data management
- Greater accuracy in workers' comp claims, helping prevent costly delays and denials
- Avoid fines of up to $25K per beneficiary[2] for Medicare directory issues
- Faster, verified provider onboarding and updates fuel additional market growth
- Data-driven reporting to track ROI, trends, and compliance performance
