

Provider Data Management (PDM)

Clean, Connected & **Completely in Your Control.**

THE CHALLENGE

Inaccurate, siloed, and outdated provider data costs the healthcare industry nearly \$5 billion¹ annually and can trigger compliance fines, claims delays, member frustration, and stalled market growth.

Whether you manage your own network or lease one, keeping provider data accurate, compliant, and ready for use shouldn't drain your time, budget, or IT resources.

THE SOLUTION

Perspecta's Provider Data Management (PDM) platform is a secure, self-service hub for consolidating, cleansing, and governing provider network data. Built for both group health and workers' comp, PDM eliminates silos, streamlines updates, and helps you meet compliance demands, without the headaches.

KEY CAPABILITIES OF PERSPECTA'S PDM
